

# F – Performance™

Flatbed Finishing Systems  
F Series

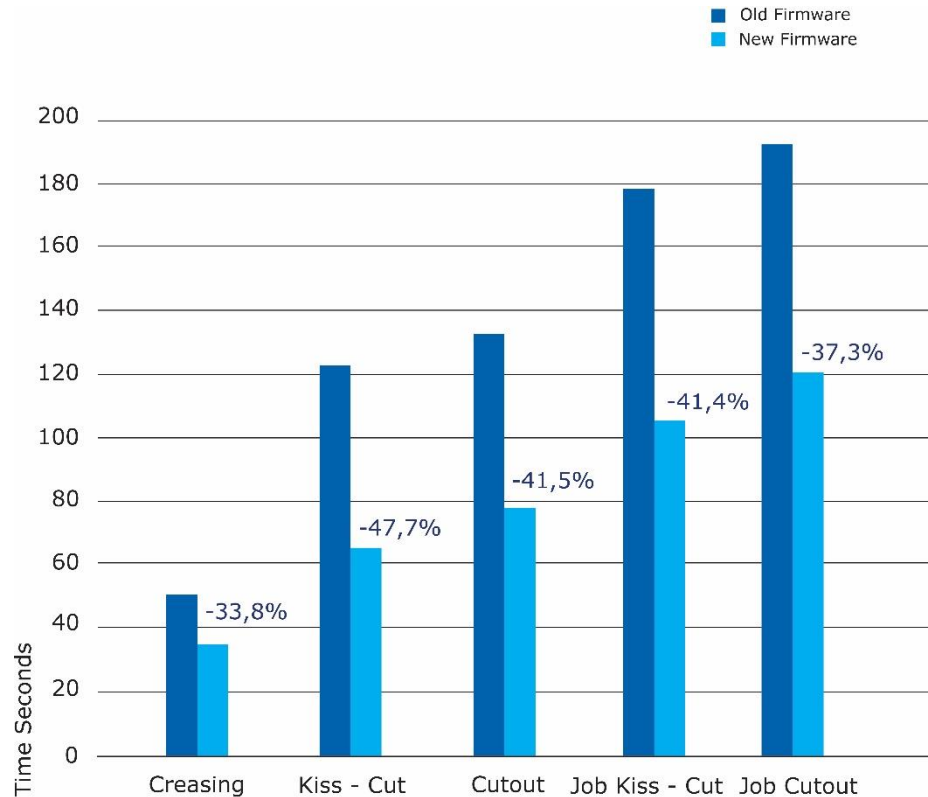

## F – Performance

- **Higher throughput**
- This mode boosts **performance up to 40%**
- The advantages include **faster movements in:**
  - **Up and down** motion of the head
  - **Turning** motion of the head
- Cuts at **maximum** rate
- [www.summa.eu/video/fp](http://www.summa.eu/video/fp)

## Old Versus New

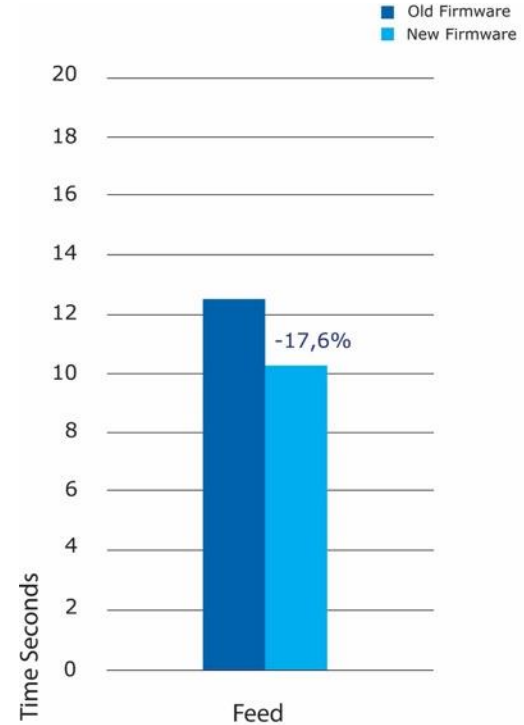

- The new firmware is remarkably faster
- The **increase** in speed of the up/down and turning **motion** is most remarkable on the Kiss - Cutting tool
- The job of the Kiss - Cut is finished almost **twice as fast**
- Also the speed, when using the Cutout tool, has increased substantially

# Extra's new firmware

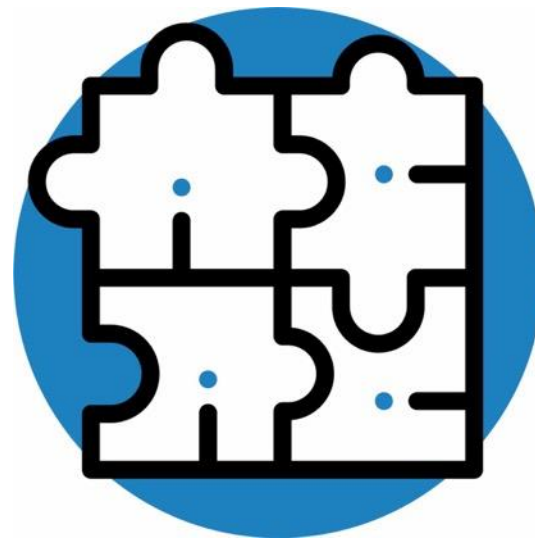

- Significant **time saving** during **feeding** with F – Performance
- Will be released in **September**
- New firmware can be downloaded **online**
- Firmware option: F-Performance
  - New flatbeds: free unlock
  - Older flatbeds: payable unlock

## Practical

---

- Available as **free** unlock on **new** machines
- **Payable** unlock on **older** (before 2018) F Series models
- **500-9520**
- Link for **registration** and **install** procedure:  
<https://www.summa.eu/en/f-performance>
- **Once activated**, it will be the **standard** mode
- Compatible for **all** F Series Flatbeds
